## Professional Summary

---

Motivated Information Engineering Technology student seeking a one-year professional internship as an integral part of my degree program. Skilled in Cyber Security, Networking, Artificial Intelligence, and Web Development, with hands-on experience in Wireshark, Nmap, Cisco Packet Tracer, AI chatbot development, and WordPress solutions. Eager to contribute technical expertise and gain valuable industry exposure in a professional environment.

## Projects / Practical Experience

---

### Cyber Security Lab Work

- Network traffic inspection with Wireshark and Nmap scanning.
- Vulnerability scanning using OpenVAS.
- SSL/TLS handshake analysis and secure communication testing.
- Encryption & secure emails with GPG digital signatures.

### E-commerce Website with Chatbot & AI Integration

- Built an e-commerce site with **AI chatbot (Dialogflow & IBM Watson)**.
- Integrated **AI-based face-swapping features** for user interaction.

### Freelance Projects

- WordPress websites for businesses.
- Logo design, branding kits, and marketing materials in CorelDRAW.

## Skills

---

- **Cyber Security & Networking:** Wireshark, Nmap, OpenVAS, SSL/TLS analysis, GPG encryption, Cisco Packet Tracer
- **Programming:** C++, Java, Python
- **Mobile Development:** Android Studio (Java/Kotlin)
- **Web Development:** WordPress, HTML/CSS, E-commerce sites
- **AI & Chatbots:** Dialogflow, IBM Watson, AI Agents, Face-swapping apps
- **Design Tools:** CorelDRAW, Logo Design, Vector Tracing
- **Office Tools:** MS Word, PowerPoint, Excel

## Certifications

---

- **Cisco Packet Tracer Professional Certification**
- **WordPress Certification** – DigiSkills.pk
- **Foundations of User Experience (UX Design)** – Google (Coursera)
- **Virtual Internship in Cyber Security (6 Weeks)** – Developer Hub Corporation
- **Effective Leadership** – HP Life
- **Cyber Security & Information Security Lab Training** (Wireshark, Nmap, OpenVAS, GPG)
